AN IMMENSE FIFTH AVENUE DRESSMAKING STOCK

On Sale Monday Morning, Nov. 24, at 8 O'clock.

We wish to call the ladies' attention to the fact that Christmas being only five weeks hence, the above mentioned dress patterns will make very acceptable presents.

A stroke of the rarest good fortune brings from New York to Omaha at the very height of the season, a dressmaking stock full of grand buying opportunities. We were enabled to purchase the entire stock from one of the swiftest and most exclusive modistes on Fifth Avenue, New York, the acknowledged home of metropolitan fashion. The fabrics in this stock are such as appealed to the most exacting women of fashion and the arrival of this stock in Omaha is an event of much importance. In spite of faultless fabric and style, we will sell these goods at a mere fraction of their worth on Monday morning at 8 o'clock.

In this lot you will find every color of the rainbow, in fact; many shades that are very scarce and all the colors that are especially popular this season and we would especially call your attention to the high, rich grade of black velvets, and as this is a velvet year these black velvets are especially adapted for tailor made suits, shirt waists or walking skirts. Every yard is worth from \$1.25 to \$2, and will go on sale, together with the above mentioned colored velvets, on bargain square in silk department, in two lots, a yard—

The Season's Choicest Furs—Our display of fine furs excels any of our previous efforts, and eclipses any showing in the west. Here are the fashionable furs in the correct shapes. Our prices are the lowest that good furs ever sold for.

Winter's Correct Millinery

With the ending of the horse shows in New York, Chicago and St. Louis, the social season of swiftdom has been ushered in, and consequently Dame Fashion's whims for winter millinery, as displayed at these great style functions, have again taken their place as the prevailing modes for the winter season. This year's millinery display has unfolded in materials for frames moire velours, taffeta silks, velvets, rough felts, plushes and heavy white laces. The shapes are mostly medium and large hats of the Shepherdess and Gainsborough styles. The colors shown being large black, white, black and white in combination, light blue, purple, pink and various hues of red.

While these colors and shapes have had more or less prominence during the late fall season, they, of course, are not so pronounced a new feature as the trimmings, which have produced a radical change in millinery garniture. Flowers, fruits, velvet foliage, berries and furs seemingly hold the center of the stage, while ostrich plumes are more popular than ever.

In conformation with these ideas, which are accepted as absolutely correct the country over, we have prepared an elaborate showing of pattern hats. These are both Parisian and our own effects, which, were they on sale at anywhere near their correct figures, would range between \$15.00 and \$18.00. On Monday at..... **\$10**
